

The perfect cleaners for acrylic glass products:

Glass foam

15,90€ per pcs

Art. Nr. R500MLDOSE / Col: white foam / content: 500ml

Product:

Our glass foam is a very powerful foam-based cleaner for all smooth surfaces.

The stable cleaning foam ensures a clean and streak-free cleaning result.

Due to the addition of butoxyethanol and propanol it has a highly effective disinfection for the most different surfaces.

Due to the NSF A1 registration (Registration Number 161214-A1) it is suitable for

Use in sensitive areas, such as the food and beverage industry as well as in the pharmaceutical and cosmetic industry.

Application:

The glass foam cleans and removes grease, oil, nicotine, insect remains, silicone, preservatives from all smooth surfaces. It perfectly cleans glass (frosted glass), mirrors, acrylic glass, plastic, metal

(stainless steel, copper, aluminium, steel, ...) and painted surfaces.

It cleans and disinfects surfaces in public areas such as buses, subways, trains, computer keyboards, handrails, shopping trolleys, etc.

Instruction manual:

Shake the foam well before use. Hold the can upright and spray the product evenly onto the surface at a distance of approx. 20 cm. Allow the foam to take effect briefly. Then rub dry with a suitable, soft and clean cloth.

For professional use only.

Microfibre cloth

40x40 cm

Art. Nr. R40x40

15,44€ per pcs

Product:

Our microfiber cloth is an absorbent cloth to absorb liquids and dirt well.

In combination with our glass foam, the cloth is perfect for cleaning acrylic glass and glass surfaces without streaks.
