spit protection 912x900x250mm
€155,- w/o taxes, excl. shipping

The spit protection includes:

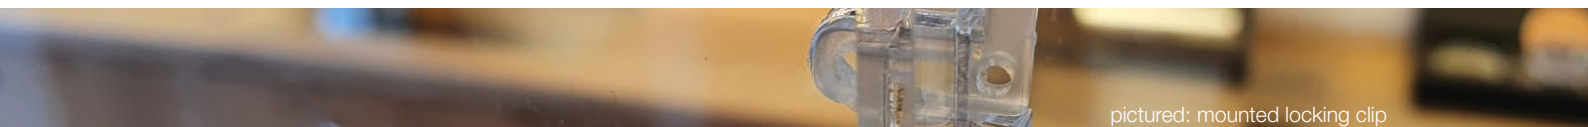

2 x side panels
(250x600/250x903mm)

2 x locking clips

1 x main panel
with opening: 320x120mm
(612x600/912x600/612x903/912x903mm)

Easy assembly:

1. Pull off protective sheet from the side and main panels.
2. Hook the side panels into the hooks on the front panel.
3. Fix the side panels on the top with locking clips.

pictured: mounted locking clip

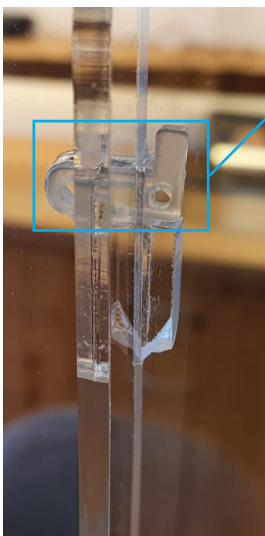

recommended for tables: height 60cm

The variants with a height of 60 cm are ideal for use on tables, while those with a height of 90 cm are intended for counters.

The showcases can also easily be used as a **sales display** for spectacle frames. For this we offer, among other things, extensions that can be added later.

Contact us for more information!

locking clip

The side walls are each fixed with a **locking clip**. In this way, the showcases can be easily set up and removed again.

recommended for counters: height 90cm
